Subject: Easibase - approval by STW

Trevor, Andy,

Thank you for your patience, and for sending the supporting/verification information regarding the EasiBase product.

I can advise that the EasiBase is acceptable for use by STW contractors on Asset Creation schemes.

I can also advise that the EasiBase is acceptable for use on Developer sites.

A key requirement of the approval is the Kitemark certification.

Trevor - if you can keep me advised of the installation, it would be useful to gain feedback from the installers to help produce an 'Innovation Bulletin' that STW will circulate to their contractors.

Morton.

Morton Eden
