28<sup>th</sup> September 2010

**RE: FP McCann Easi-Base Manhole Unit**

Andy,

Following consideration by United Utilities' Wastewater Civil Engineering Manager, and United Utilities' Network Operations Wastewater Adoptions Manager, the use of the abovementioned product would be supported where proposed for utilisation within an appropriate and correctly engineered project solution.

It is noted that the product has WRC approval (*certificate PT/274/0808 expiry 28/8/2013*) and meets or exceeds the requirements of Sewers For Adoption 6. This support is valid until the expiry of the WRC certificate and/or non compliance with SFA6 successor document.

Yours Sincerely,

A handwritten signature in black ink that reads 'S. A. Catte'.

Steve Catte
