

# EXPOSED CONCRETE

FP McCann's concrete exposed combines the beauty of natural coloured aggregate with the strength and durability of readymix concrete. It can be used in a wide range of domestic and commercial applications with a number of different styles available.

# FP MCCANN IS SPREAD OVER EIGHT DIVISIONS:

## 1. PRECAST CONCRETE PRODUCTS

- **AGRICULTURAL** - cattle slats, dirty water/effluent tank
- **BUILDING** - building blocks, building stone, cills, lintels, pier caps, kerbs, comms boxes
- **DRAINAGE** - manholes, catchpits, pipes, wide wall chambers, headwalls, box culverts, etc.
- **FENCING** - posts, gravel boards
- **FLOORING** - T Beam
- **WALLING** - prestressed horizontal panels, L walls, rocket walls™, T walls, easi-bloc™, gabions, safety barriers

**2. CONSTRUCTION** - award-winning construction work within Northern Ireland; these include projects in the public sector areas of health, education, water and transport infrastructure, and private industrial and commercial developments

**3. READY MIX CONCRETE** - various strengths, stone sizes, fibres and admixtures

**4. DRY SILO MORTAR** - delivered to site in bulk tankers and stored in our portable, sealed silo with a built-in automated mixing system. \* Now available for collection wet or dry.

**5. QUARRYING** - aggregate, crusher run, blinding, dust, drainage stone, rock armour, rock pitchers, gabion stone, recycled fill uncrushed/crushed

**6. COMMERCIAL & RESIDENTIAL SURFACING** - bitmac, red and black chip asphalt, gravel/quarry stone, concrete, exposed aggregate concrete

**7. FP MCCANN HOMES** - construction of prestigious housing developments in prime locations throughout Northern Ireland

**8. BAGGED PRODUCTS** - Postmix and Easi-Repair™ Cold Lay Tarmac are part of our extensive bagged product range

## APPLICATIONS

Concrete Exposed is available in a broad pallet of colours and is ideal in many scenarios including:

- Domestic driveways
- Patios and pathways
- Pavements and footpaths
- Public spaces and commercial areas

## STYLES AVAILABLE

- Lite Gold
- Monochrome
- Forest Flint
- Pink Pebble

## BENEFITS

Concrete exposed offers many benefits over traditional surfacing options:

- ✓ Aesthetic appearance – utilises the beauty of natural aggregate to achieve a highly decorative effect
- ✓ Choice – lots of colours & textures to choose from, which allows you to customise your look
- ✓ Durable as the product is concrete, it is extremely hardwearing
- ✓ Low maintenance; fewer joints & prohibits the development of weeds & moss, so is easy to keep clean
- ✓ Can be used in a wide range of applications including driveways, patios, footpaths and public spaces
- ✓ Safety – more slip resistant than alternatives

Please note: Other aggregates and styles can be sourced on request
